

Academic Camp Canada

– New Brunswick (age 12-17)

New Brunswick, located on Canada's Atlantic coast, was one of the first places to be discovered by the European settlers. The province's stunning beaches, rivers, and forests provide ample opportunity for a variety of outdoor activities such as freshwater swimming, hiking, paddleboarding, kayaking, and outdoor survival. The area is well-known for its extreme tides, whale watching, and for being the birthplace of the toilet flush.

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
