Looking to the future

In the world of AI...

You need skills that computers don't have:

- creativity
- problem-solving
- adaptability
- ethical awareness
- emotional self-regulation
- teamwork
- critical thinking

We want to help you develop these skills and help you prepare for your futures

Content & Language Integrated Learning (CLIL)

CLIL is an holistic approach and will help you:

- enhance your **content** knowledge in your subject areas
- develop your **cognition** skills - critical, logical, reflective, reasoning, problem solving, creative...
- understand **culture** and your role as a global citizen
- work on your **communication** skills in the language

Academic Summer's unique methodology
