

IELTS 2023

Description

IELTS is designed to test the language ability of people who want to study or work where English is used as the language of communication. IELTS is the world's most popular English test for higher education with over 2.5 million tests taken each year, therefore, it is widely accepted as part of university recruitment or admission procedures. IELTS candidates receive a score on a scale of 4.0 to 9.0 equivalent to the Common European Framework of Reference levels B1, B2, C1, or even C2. IELTS band scores can provide a reliable comparison between Cambridge English Scale scores. There is no pass or fail result. IELTS certificates are valid for two years. Students can choose between a paper-based and a computer-based version, subject to availability.
